Pricking Irons vs Thread Sizing Chart

This chart is intended to be guide to help you decided which combination of pricking irons and thread you would like to try. This chart is based entirely on my personal preference and I encourage you to try different combinations that may better suite your personal style and astetic. I have included the photo below of a few combinations that will better demonstrate the resulting stitch line.

Safe Combo

Outside The Box

Use At Own Risk

Thread Irons	0.35mm 0.14"	0.45mm 0.2"	0.55mm 0.22"	0.60mm 0.24"	0.76mm 0.30"	1.02mm 0.40"
2.7mm	Safe Combo	Outside The Box	Use At Own Risk	Use At Own Risk	Use At Own Risk	Use At Own Risk
3.00mm	Safe Combo	Safe Combo	Outside The Box	Use At Own Risk	Use At Own Risk	Use At Own Risk
3.38mm	Outside The Box	Safe Combo	Safe Combo	Outside The Box	Use At Own Risk	Use At Own Risk
3.85mm	Outside The Box	Safe Combo	Safe Combo	Outside The Box	Use At Own Risk	Use At Own Risk
4.00mm	Outside The Box	Safe Combo	Safe Combo	Safe Combo	Outside The Box	Use At Own Risk
5.00mm	Use At Own Risk	Safe Combo	Safe Combo	Safe Combo	Outside The Box	Use At Own Risk
6.00mm	Use At Own Risk	Use At Own Risk	Use At Own Risk	Outside The Box	Safe Combo	Safe Combo

My Recommendation if you want one size of irons and one size of thread.
